

## **KENNETH GRUNDSTEIN, ESQ.**

*Former NYC Chief Settlement Negotiator*

Kenneth Grundstein has been committed to the practice of law for over thirty-two (32) years with a long and distinguished career in the legal profession and in public service. The majority of his career has been dedicated to serving the City of New York. Prior to joining National Arbitration and Mediation (NAM), as a full-time Hearing Officer in 2010, he was Senior Counsel and Chief Settlement Negotiator for the New York City Health and Hospital Corporation, the largest municipal hospital and health care system in the country.

Mr. Grundstein began his illustrious career with the Office of the Comptroller in NYC as Chief of the Personal Injury Division. He supervised a staff of over fifty employees involved in investigating and settling a variety of tort claims. During his tenure, Mr. Grundstein developed, implemented and supervised an Early Settlement Program; a joint initiative between the Comptroller's Office and the New York City Law Department.

Eight years later, Mr. Grundstein began working for the New York City Law Department as a Senior Litigator. While there, he served as the chief settlement negotiator for all large exposure cases against the city, including significant medical malpractice lawsuits brought against the Health and Hospitals Corporation. Consequently, the transition over to the New York City Health and Hospitals Corporation as Senior Counsel/Chief Settlement Negotiator was seamless. Mr. Grundstein supervised all litigation, trials and negotiations in connection with high exposure professional liability claims against the HHC.

During this time, Mr. Grundstein successfully negotiated and settled over 10,000 cases, more than 1000 of which were well into the seven figure range, with some into eight figures. In his capacity as Chief Settlement Negotiator, he reduced the backlog of pending cases for his employer by 50%. He handled not only high exposure but also high profile cases, including medical malpractice, motor vehicle, police assaults, premises liability, labor law, board of education, etc.; damages included brain damage, quadriplegia, loss of vision, loss of limb; wrongful death, zone of danger, property damage, etc.; a fairly recent example would be the Staten Island Ferry crash cases; in addition to a major medical malpractice case involving a local hospital's psychiatric program. As a result Kenneth Grundstein has established himself as an authority on negotiation and settlement.

### **ALTERNATIVE DISPUTE RESOLUTION EXPERIENCE**
